### For Immediate Release

## Institute for Graphics and Imaging to Conduct Boot Camp for Digital Print Process Control

Pewaukee, Wisconsin—July 2009—The Institute for Graphics and Imaging (IGI)—an education and training organization funded by and dedicated to the printing and graphic arts industry—has announced a one-day training course on digital print process control. The course will be held on August 11, 2009, and will be conducted by Jim Raffel, the CEO of ColorMetrix Technologies. The course will be directed at general managers, prepress personnel, pressroom managers, or anyone responsible for ensuring that quality color is produced in the print shop, and will culminate with an actual press run on the IGI Kodak NexPress. Course details and registration forms may be found at [www.igi.org/events](http://www.igi.org/events).

Announcing the new course, IGI Executive Director Ron Dahl commented: “IGI is pleased to welcome Jim Raffel to the IGI staff for a most timely course in digital print process control. Jim is a widely known and respected color expert, with extensive pressroom experience.”

The Institute for Graphics and Imaging provides education and training in the graphic design, printing, and related industries. Supported by a vast network of industry suppliers, printers, publishers, and governmental agencies, IGI operates on the campus of the Waukesha County Technical College in suburban Milwaukee. IGI facilities, which include computer classrooms and access to the latest printing equipment, are available for sales events and corporate training courses. For additional information go to [www.igi.org](http://www.igi.org) or call 262-695-6260.
