About IGI

The International Gemological Institute (IGI) operates 18 laboratory locations around the world grading finished jewelry, natural diamonds, lab-grown diamonds and gemstones – and 14 schools of gemology graduating thousands of new jewelry professionals annually. For over 45 years, IGI has provided the fine jewelry community and consumers with a broad range of services including independent diamond grading reports, colored stone reports, identification and appraisal reports, diamond authentication and attestation of origin, laser inscription services, as well as the issuing of the traditional jewelry identification report. Regardless of location or marketplace, an authentic IGI Laboratory Report is the common language of trust and confidence in the gemological world.
